OBSERVATION INFORMATION

| Species | Date(s) Observed | Spawning | Rearing | Migration | Anadromous |
|---------|------------------|----------|-------------------------------------|-----------|-------------------------------------|
| coho | 10/3/98 | | <input checked="" type="checkbox"/> | | <input checked="" type="checkbox"/> |
| | | | | | |
| | | | | | |
| | | | | | |

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: 2 minnow traps set, 24 hr soak, salmon egg bait. Set one trap below beaver dam, approx 3' high: 5 coho fry other trap just above barrier dam: NO fish. Stream below dam 10-12" wide, gravel/sand, low gradient

Name of Observer (please print) Peter Branson, Frw Tech III, Diuane Cassidy, volunteer
Date: 10/6/98 Signature: P. Branson
Address: P.O. Box 2073
Wrangell, AK 99429

This certifies that in my best professional judgement and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.
